CAPE 50 | "SOCIETE"

Style, Performance & Proven Capability with a Palm Beach Motor Yacht Theme

The 2020 Cape 50 embodies the perfect balance of timeless elegance, robust seaworthiness, and modern efficiency. Professionally maintained since new and boasting very low engine hours, this vessel presents as new and has had all critical maintenance completed, offering complete peace of mind for her next owner.

Built in Australia and, much like the acclaimed Palm Beach 50, the Cape 50 blends classic Downeast-inspired lines with contemporary engineering and race yacht heritage to deliver both striking good looks and remarkable performance. From her plumb bow that extends the waterline and enhances efficiency, to the fine entry hull form designed to slice effortlessly through chop, every feature serves a purpose.

Her Volvo Penta IPS propulsion system ensures exceptional fuel economy and responsive handling for shorthanded operations, while the hard chine and flare keep the decks dry and the ride stable in all conditions. At rest, the wide, flat planing surface offers impressive stability, making her equally at home entertaining at anchor or cruising at pace.

OVERVIEW

Thoughtfully designed with European-style sophistication, the Cape 50 offers luxurious accommodations, berthing for four, a sleek sheerline, and a beautifully crafted tumblehome stern that ties her classic heritage to her modern performance pedigree.

This 2020 Cape 50 is a rare opportunity to secure a low-hour, professionally maintained yacht that shares many similarities with the world-class Palm Beach Motor Yachts — combining performance, economy, and offshore capability at a fraction of today's replacement value.
