FOR SALE

SUNSEEKER 75 YACHT | "DISCO VOLANTE"

SIGNIFICANT PRICE REDUCTION.

BUYERS ENCOURAGED TO COME FORWARD. AN EXCELLENT OPPORTUNITY TO ACQUIRE A TIMELESS SUNSEEKER 75 YACHT, WITH MAJOR PERIODIC MAINTENANCE AND UPGRADES ALREADY COMPLETED.

CHAPMAN is pleased to present the 2005 Sunseeker 75 Yacht DISCO VOLANTE to the market.

Professionally crewed, maintained and operated by CHAPMAN since 2020, DISCO VOLANTE has benefited from a substantial programme of upgrades throughout 2023, together with ongoing preventative maintenance and cosmetic improvements.

The result is a beautifully proportioned motor yacht that continues to hold her own against far newer vessels, combining Sunseeker's timeless styling, impressive internal volume and proven cruising performance.

Designed equally for extended coastal cruising and relaxed entertaining, DISCO VOLANTE offers generous accommodation for eight guests across four ensuite cabins, including a full-beam master suite, forward VIP and two twin guest cabins. Separate accommodation for two crew provides further flexibility, whether professionally crewed or privately operated.

The main deck features a spacious, open-plan saloon with comfortable leather lounges, a contemporary galley and an additional dinette adjacent to the lower helm. Large windows provide excellent natural light, while the aft saloon doors open directly onto the generous teak-laid cockpit, creating a seamless connection between the interior and outdoor entertaining areas.

Further aft, the substantial hydraulic submersible swim platform provides easy access to the water and a practical arrangement for tender handling. Tender not included in the sale.

Above, the expansive flybridge is one of the standout features of the Sunseeker 75. Complete with a Bimini, wet bar, BBQ, multiple lounging areas and a dedicated outdoor dining space, there's ample room for entertaining or simply enjoying time on the water. The open aft section provides additional usable deck space and flexibility for future owners.

Below decks, a walk-around engine room provides excellent access to the yacht's machinery and auxiliary systems, an important practical consideration for a vessel of this size.

Powered by twin MAN V12 diesel engines, DISCO VOLANTE offers a comfortable cruising speed of approximately 22-24 knots and a maximum speed of around 31 knots, with the flexibility to cruise at more relaxed speeds when preferred in a highly fuel efficient manner.

With the benefit of substantial investment in the areas that matter most on a yacht of this age, DISCO VOLANTE offers an attractive proposition for buyers seeking the space, performance and pedigree of a larger motor yacht without undertaking a comparable programme of upgrades themselves.

DISCO VOLANTE represents an excellent opportunity to acquire a substantial, well-equipped Sunseeker 75 Yacht with an established maintenance history and considerable recent investment.
