## BAHAMA 31

---

Built by one of the most highly regarded boat builders in the USA, the Bahama 31 sets the benchmark for centre console offshore performance. Renowned for exceptional craftsmanship and uncompromising quality, it delivers outstanding capability and represents the pinnacle of its class.

Equally suited to offshore fishing, diving adventures or relaxed family days on the water, this Bahama offers an impressive blend of practicality and comfort. A spacious console cabin, complete with a private bathroom and shower, is complemented by abundant storage throughout. Its deep-V hull provides a soft, confident ride, while the wide beam, expansive cockpit and extra-wide walkaround decks deliver exceptional stability both underway and at rest. Powered by twin 300hp Mercury Verado outboards, the Bahama 31 offers the safety, reliability and performance expected of a serious offshore fishing machine.

Comprehensively refurbished in 2022 with no expense spared, this vessel presents in near-new condition and features a host of premium upgrades. The hull and topsides have been refinished in Awlgrip 'Snow White' and 'Haze Grey', complemented by a matt black powder-coated T-top and rails. New SeaDek flooring has been installed throughout, along with a Fusion stereo system, red LED gunwale lighting, underwater lights, and new navigation and overhead lighting mounted to the roof. The dashboard has been completely redesigned in painted fibreglass with new stainless steel switches, while new trim tabs and a handheld shower further enhance functionality and comfort.
